

A Better Way to Grow **STRONG BRANCHES**

Microsoft® server solutions for
branch offices, remote sites and
other distributed facilities.

Now You Can Give Any Branch Location More—for Less

Whether your extended enterprise consists of branch offices, retail outlets, remote properties, or distributed facilities, delivering server benefits to each location can be challenging—and costly. Branch locations can consume as much as a third of your IT budget. Isn't it time you made the most of your server investments? Now you can.

Introducing the Microsoft® Branch Office Solution

Based on Microsoft Windows® Server 2003 R2, Microsoft Internet Security and Acceleration Server and Microsoft Operations Manager, the Microsoft Branch Office Solution helps drive higher productivity in every location. With this solution you can reduce Wide-Area Network (WAN) traffic by up to seventy percent, simplify and centralize server management, rapidly and securely replicate files, and ensure uninterrupted service to remote locations and branch offices. Best of all, it has been shown to deliver return on investment in less than five months.

Lower Your Total Operational Costs

To see for yourself how a Microsoft Branch Office Solution can help lower your total cost of ownership, we are offering you access to our Branch Office Savings Calculator*. This online tool will analyze your current IT investments and provide you with a customized savings report based on implementing a Microsoft Branch Office Solution.

To access the Branch Office Savings Calculator or to download an informative IDC Whitepaper on the operational efficiencies of servers in branch offices visit www.strongbranches.com

Grow strong branches with a Microsoft Branch Office Solution.
